Satpuda Foundation's conservation philosophy focuses on communities living in and around protected areas. The Foundation believes that these communities need to be roped in as allies in the conservation movement and that long-term, sustainable conservation is not possible only through the action of outsiders.

As part of this strategy, the Foundation follows a multi-pronged strategy of trust-building activities with communities, assisting them in meeting some of their basic needs, building their capacities and training and equipping them to shift to a lifestyle which is not based entirely on forests and forest produce.

Towards this end, the Foundation

- helps organise medical camps in which villagers get free medical treatment and medicines
- undertakes education programmes focusing on nature and wildlife conservation
- acts as a bridge between the villagers and development agencies in solving local development needs and
- assists villagers in getting gainful, legal employment and also organizes training programmes which help equip unemployed villagers with skills which will help them either get jobs or start their own small businesses

### **Highlights of activities in 2010-2011**

- *17 shramdhaans for water conservation*
- *Joined Forest Department on patrols on 17 occasions*
- *Assisted in fighting fires in forest on several occasions*

- *38 film shows on nature and wildlife conservation -- attended by 2,641 villagers*
- *28 unemployed youths placed in jobs with our assistance*
- *5 training/skill-enhancement programmes – attended by 61 villagers*
- *55 medical camps – cumulative total of 2,416 villagers provided with free treatment and medicines*
- *Special initiatives in Sawara village to promote self-employment results in villagers earning total of around Rs 60,000/-*

## **Conservation activities**

### ***Water Conservation***

The Foundation organises programmes involving local villagers and school children to build temporary structures known as check dams/stop dams which help to retain water and to recharge water table of the adjoining areas. These structures are typically built on streams, known as nallahs, and are selected with the help of local forest officials and villagers.

In addition, we also help build soak pits next to wells/hand pumps. These soak pits collect the water which is spilt while being drawn from the hand pump or well and help to recharge the water table.

### ***Fire fighting***

Each year, our teams assist in preventing fires, fighting fires, which are very common in the dry, deciduous forests of this region. We start with awareness programmes from the spring months onwards and then extend our efforts to physically fighting the fires, which typically occur during the summer months.

### ***Patrolling/cleaning of waterholes***

Our staff voluntarily joins hands with local forest officials in anti-poaching patrols and help in cleaning waterholes meant for wildlife.

### ***Organic farming***

Our team promotes organic farming by conducting programmes explaining the benefits and by arranging for training to interested villagers. It also assists in building compost pits. The focus is to reduce the impact of chemicals on farmland next to prime forest areas.

**Details of our conservation activities are in Annexure 1.**

### Activities involving Mumbai-based volunteers

An IT education module has been started in Sawara with the help of SF volunteers Bipasha Majumdar, Kirti Chavan and Rajashree Khalap. They have collected computers and liaised with Pratam, an NGO which focuses on education, to bring IT to the village kids. Currently, they have arranged for 4 desk tops and one laptop to be placed at Sawara ZP School.

The initiative is led by Kirti Chavan, who is training the students and monitoring their progress.

Another activity undertaken by Mumbai-based supporters is helping villagers to make and sell products such as bags, handicrafts and products made from lantana. Ms Rajashree Khalap, who is actively involved in this activity, gave fresh designs of bags and handicrafts to the villagers for them to copy and make on their own. Once the villagers attain the required degree of finish in their work, our Mumbai volunteers will look for suitable marketing opportunities.

### **Education activities**

Every month, during the academic year, we visit village schools in our area of operations to give classroom lectures on nature and wildlife, lead the students on nature trails to learn first hand about nature and wildlife and conduct interactive games with themes based on nature and wildlife.

The programme also includes the showing of films on wildlife and nature.

**Details of education activities are in Annexure 2.**

**Details of film shows are in Annexure 3.**

*Field assistant Dilip Lanjewar leads students of Ghoti on a nature trail in Pench Tiger Reserve, Maharashtra*

*Film show on nature and wildlife conservation at Sillari, Pench (Mah)*

*Film show about tigers at Zilla Parishad School, Zinzeriya*

## **Livelihood programmes**

The Foundation is deeply conscious that villagers have limited livelihood options. It is not easy to preach conservation to people struggling for a living. The Foundation has, therefore, made a focused effort to provide employment opportunities to unemployed youths and to organise programmes at which they have been able to learn skills which equip them to either get jobs or start their own small businesses.

We organised various training/skill-enhancement programmes during the year including programmes on driving four-wheelers, tailoring and embroidery, honey bee rearing.

### **Highlights:**

- *A total of 28 youths have got jobs either directly through our efforts or thanks to our support*
- *We had also organized youths of Sawara to start retail selling of T-shirts. The youths were introduced to wholesale dealers in Nagpur from whom they purchased the garments in bulk and sold them for a profit in the village markets. So far , they have earned Rs 15,900/- till March 31, 2011*
- *Similarly, a group of ladies for whom we had organised training in tailoring and embroidery, has earned Rs 9,870/- thanks to the efforts of our Mumbai-based volunteers Rajashree, Bipasha and Kirti*
- *Another group of villagers whom we motivated to form a tribal dance group and whom we introduced to resorts and helped to get performance bookings, has earned Rs 27,450/- till March 31, 2011*
- *Villagers whom we helped train in making products from lantana have earned Rs 7,500/-*

Details of job placements and training programmes are in Annexure 4.
