Satpuda Foundation's conservation philosophy focuses on communities living in and around protected areas. The Foundation believes that these communities need to be roped in as allies in the conservation movement and that long-term, sustainable conservation is not possible only through the action of outsiders.

As part of this strategy, the Foundation follows a multi-pronged strategy of trust-building activities with communities, assisting them in meeting some of their basic needs, building their capacities and training and equipping them to shift to a lifestyle which is not based entirely on forests and forest produce.

Towards this end, the Foundation

- helps organise medical camps in which villagers get free medical treatment and medicines
- undertakes education programmes focusing on nature and wildlife conservation
- acts as a bridge between the villagers and development agencies in solving local development needs and
- assists villagers in getting gainful, legal employment and also organizes training programmes which help equip unemployed villagers with skills which will help them either get jobs or start their own small businesses

Highlights of activities in 2012-2013 (April-March)

- *Water conservation - 9 shramdhaans to build check dams*
- *Joined Forest Department staff on patrols on 42 occasions*
- *Community assistance – 13 programmes to clean drains, areas next to wells, hand pumps*
- *Plantation programme in 7 villages – total of 145 seeds planted*
- *21 nature trails conducted for village children, 1 conservation rally*
- *Cleaning of waterholes in forest on 6 occasions*
- *108 visits to village schools to talk to children about nature and wildlife conservation – attended by a cumulative total of 3,499 students*
- *22 film shows on nature and wildlife conservation -- attended by 1,156 villagers*
- *10 unemployed youths placed in jobs with our assistance*
- *77 medical camps – cumulative total of 2,964 villagers provided with free treatment and medicines*
- *Various initiatives in Sawara village to promote self-employment results in villagers earning over Rs 33,000/- in the financial year. They have earned over one lakh rupees in the past two years*

Conservation activities

Water Conservation

The Foundation organises programmes involving local villagers and school children to build temporary structures known as check dams/stop dams which help to retain water and to recharge water table of the adjoining areas. These structures are typically built on streams, known as nallahs, and are selected with the help of local forest officials and villagers.

In addition, we also help build soak pits next to wells/hand pumps. These soak pits collect the water which is spilt while being drawn from the hand pump or well and help to recharge the water table.

Fire fighting

Each year, our teams assist in preventing fires, fighting fires, which are very common in the dry, deciduous forests of this region. We start with awareness programmes from the spring months onwards and then extend our efforts to physically fighting the fires, which typically occur during the summer months.

Patrolling/cleaning of waterholes

Our staff voluntarily joins hands with local forest officials in anti-poaching patrols and help in cleaning waterholes meant for wildlife.

Organic farming

Our team promotes organic farming by conducting programmes explaining the benefits and by arranging for training to interested villagers. It also assists in building compost pits. The focus is to reduce the impact of chemicals on farmland next to prime forest areas.

Details of our conservation activities are in Annexure I.

Monthly reports, with detailed narration, are available on our Web Site www.satpuda.org

Education activities

We visit village schools in our area of operations to give classroom lectures on nature and wildlife, lead the students on nature trails to learn first hand about nature and wildlife and conduct interactive games with themes based on nature and wildlife.

The programme also includes the showing of films on wildlife and nature.

Details of education activities are in Annexure II

Details of film shows are in Annexure III.

Livelihood programmes

The Foundation is conscious that villagers have relatively limited livelihood options. It is not easy to preach conservation to people struggling for a living. The Foundation has, therefore, made a focused effort to provide employment opportunities to unemployed youths and to organise programmes at which they have been able to learn skills which equip them to either get jobs or start their own small businesses.

Highlights:

- *A total of 10 youths have got jobs either directly through our efforts or thanks to our support*
- *Another group of villagers whom we motivated to form a tribal dance group and whom we introduced to resorts and helped to get performance bookings, has earned Rs 31,000/- during 2012-13*
- *We helped identify 30 candidates for driver's training and helped the Forest Department organise the training programme*
-

Details of job placements and training programmes are in Annexure IV.

Health camps

Satpuda Foundation organises medical camps at which villagers get free treatment and medicines. These camps, whose schedule is set in conjunction with the managements of the respective Tiger Reserves, are run by the Mobile Health Unit (MHU) of Nature Conservation Society, Amravati, a partner NGO.

Job placements and training programmes

April

A tribal dance group, comprising villagers from Sawara, earned Rs 4,000/- in April through 2 programmes. The group was set up with our assistance and we help it by speaking to resort owners to organise performances by the group.

Six village youths got jobs with the Forest Department thanks to our assistance. Our team is in constant touch with local Dept officials to find out vacancies for temporary jobs which arise periodically such as fire-watchers and patrollers. We informed local village youths of the vacancies and took them to the Department. Six youths got jobs through this effort.

3	July 2	Pipariya	Keshav P.Gajbhiye	6,200/-	7th pass	35	Labourer on daily wages with FDCM Nature Club Sillari

With an intention to provide alternative livelihood options to local youths and to wean them away from forest –dependent activities, the Forest Department had asked us to identify suitable programmes for the youths and to identify candidates for the training programmes. We suggested a programme to train youths as drivers of four-wheelers and on February 20, the Forest Department launched a drivers' training programme for 28

youths from Ghoti, Sillari, Pipariya, Wagholi and Khapa villages. The one –month programme involves the local eco-development committees also.
